

Website Plan

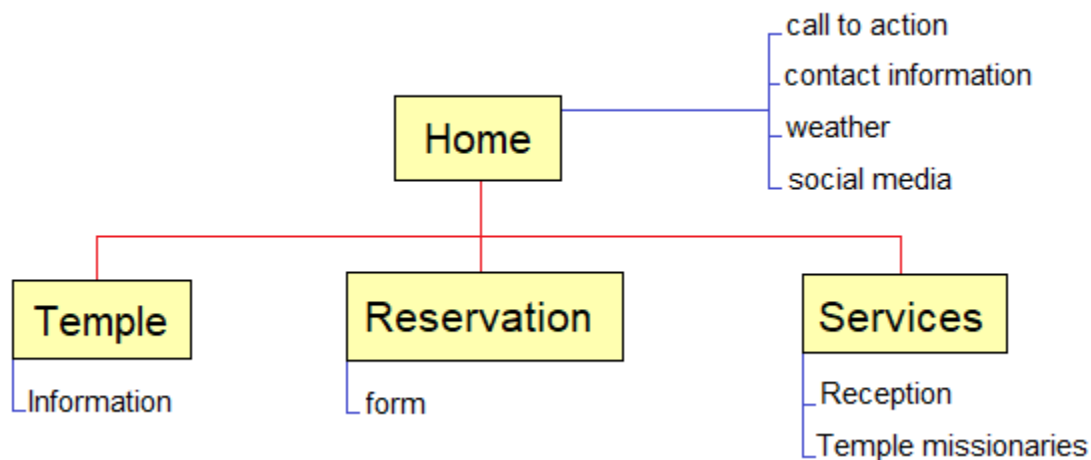

Site purpose

The website's main objective is to present and facilitate access to the hotel's services and invite church members to make reservations. It provides information about the hotel's facilities, a reservation page, contact information, and temples information.

Target audience

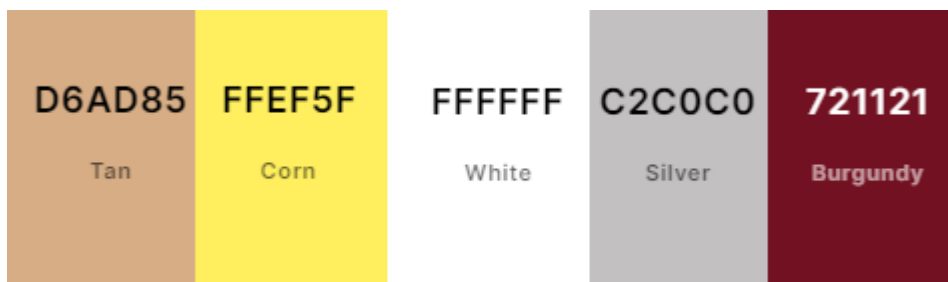

The website is primarily for those desiring to attend the temple and looking for a place to stay. Most of these people will be church members, some of which will be temple workers. But there will also be non-members looking for a pleasant and comfortable place to stay. The age range is wide, going from the youngest to the oldest, but most people will be adults.

Colors Scheme

<https://coolors.co/d6ad85-ffef5f-ffffff-c2c0c0-721121>

Typography

Headings: For headings I chose "Playfair display" because I think it is elegant and appealing.

Paragraphs: For paragraphs I chose "Montserrat" because it is simple and easy to read.
